Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1911 edition. Excerpt: . . . to mensuration motives. Pictures are few and the teacher is allowed unusual latitude. In the Heath arithmetic everything has been tested beforehand and there is nothing whatever experimental in the book. It combines three things, viz. , logical system, exact directions to teachers, and conforms to the demands of business life (the first and last being in their very nature unharmonizable). Topical and spiral ideals are also harmonized. All, we are told, is simple, logical, practical, with much drill, yet much principle. The child must understand processes, and yet chief emphasis must be laid upon results. The first pictures are beautifully colored, and colored discs are used again to illustrate and sweeten the bitterness of fractions. The first work is chiefly mental arithmetic, and after that, in a separate compartment of the book, come mensuration and the four fundamental rules, with written work. The eight-graded city arithmetic presents all needed for each grade by the latest method, and no more. and adapts everything to the powers, needs, and interests of the children so as to save time. Objective methods are stressed and the first years work is limited to the number twenty. The type is excellent, and there are anecdotes, examples, cuts of many kinds--stars, fans, tops, goats, pigs, knives, hands. fish, etc. Like others, this is a book that each first or second grade child must have and is one which each teacher must follow, although probably she might, if she were original,...
