Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from North Carolina Conditions Inviting Farming, Trucking, Cattle-Raising and Dairying: Soils and Climate North Carolina is essentially an agricultural State. While she has developed in manufacturing in the last decade more than any other State in the Union, the increase in this line having been over 800 per cent, the greatest increase is in cotton manufacturing, which is largely due to the fact that the farmers of the State are largely engaged in the culture of this staple. To the large area in tobacco, too, is due the great development of the State in the manufacture of tobacco, and her unequalled forests of hardwoods have tended to the building up of a great woodworking industry. Hence we come back to the soil as the source of the wealth and development of North Carolina. There is no State in the Union, unless we except California, which has such a varied series of crops, owing to the great range of climate. Lying largely on the great undulating plain sloping from the mountains to the sea, and from the...
