In putting this little book before the public, it is the author s aim to give his readers a practical and concise treatise on the keeping of poultry on a limited space of ground. But even with the high grain prices current, one may expect to make a profit of at least three dollars per hen. Because of the limited space, a back yard plant should make a specialty of breeding-stock; permitting the poultry farmer with a larger area to specialize in the production of eggs for commercial use. It is possible, however, for a town lot breeder to incubate and raise to three months...
